

Turn Complexity into
Capability

Eliminate Waste

Deliver Excellence

Mr. Ranjit Mondal

Delivering safe, efficient and
cost-effective conveying
solutions for your business.

Building Operational Excellence
through Lean Manufacturing,
Lean Six Sigma and Workforce
Capability — transforming
waste, variation and process
complexity into measurable
business performance.

**IMPROVE
PERFORMANCE**
Higher Productivity
& Efficiency

REDUCE COST
Lower Cost
of Operations

ENHANCE QUALITY
Consistent Quality
& Reliability

BUILD CAPABILITY
Empowered Workforce
Sustainable Excellence

MEET OUR TRAINERS

Experienced Professionals. Practical Insights. Real Results.

1

TRAINER

Trainer Name:
Mr. Ranjit Mondal

Lean Six Sigma, Steel Cord and Textile
Conveyor Belt Expert

Experience : 18+ Years

EXPERTISE

Conveyor belt design & Engineering
Lean Six Sigma, Power BI, Advanced
Excel, Data Analytics, Advance AI,
Industry 4.0
ISO Internal Auditor (ISO 9001)
Safety Standard & Risk Management
Performance Improvement &
Optimization

FOCUS AREA

Conveyor Belt Efficiency
Quality Control
Process Optimization
Productivity Improvement
System Implementation

2

TRAINER

Trainer Name:
Mr. Ruturaj Jadhav

Process Excellence & Continuous
Improvement

Experience : 9+ Years

EXPERTISE

Process Excellence
SAP – PP (S4 HANA)
SQL, Python, Power BI, Advance
Excel
Lean Manufacturing & 5S
Data Analysis & KPI Management

FOCUS AREA

Continuous Improvement Initiatives
Waste elimination & Cost Reduction
Productivity Enhancement
Process Standardization
Change Management & Team Building

www.linkedin.com/in/ranjit-mondal-316301ab

ABOUT US

We are specialized Conveyor Belt Consultants with hands-on experience in design, operation, maintenance and troubleshooting of conveyor systems. Our mission is to optimize performance, enhance safety and extend conveyor life through practical and result-oriented solutions.

OUR SERVICES

1

Design & Review

CONVEYOR BELT DESIGN & REVIEW

Capacity calculation, system layout, component selection and optimization

2

Troubleshooting & RCA

TROUBLESHOOTING AND ROOT CAUSE ANALYSIS

Identification of problems and providing sustainable solutions to avoid recurrence.

3

Performance Improvement

PERFORMANCE IMPROVEMENT TECHNOQUES

Improving availability, reducing spillage, controlling downtime and increasing efficiency

+91 9051796271

ABOUT US

We are specialized Conveyor Belt Consultants with hands-on experience in design, operation, maintenance and troubleshooting of conveyor systems. Our mission is to optimize performance, enhance safety and extend conveyor life through practical and result-oriented solutions.

OUR SERVICES

4

Maintenance Support

MAINTENANCE SUPPORT

Maintenance strategy, preventive maintenance plans, inspection and reliability improvement.

5

Safety & Compliance

SAFETY AND COMPLIANCE

Safety audits, risk assessment and ensuring compliance with international standard

6

Training & Competency

TRAINING AND COMPETENCY

Customized training programs for operators, staff and workers

OUR SERVICES

Building Capability Across People • Process • Technology

01

SOFT SKILLS & DATA ANALYTICS

*Empowering People.
Enabling Data-Driven Decisions.*

- Leadership & Team Building
- Problem Solving & Decision Making
- Communication & Conflict Management
- Advanced Excel & Power BI
- Data Visualization & KPI Analytics
- AI & Data-Driven Improvement

02

LEAN MANUFACTURING

*Eliminating Waste.
Creating Flow. Improving
Productivity.*

- Lean Manufacturing Implementation
- 5S & Visual Management
- Value Stream Mapping
- Kaizen & Continuous Improvement
- Waste Elimination
- Productivity & Process Improvement
- Standard Work & Process Optimization

03

LEAN SIX SIGMA

*Reducing Variation.
Improving Quality. Solving
Problems.*

- DMAIC
- Root Cause Analysis
- SPC & MSA
- 7 QC Tools
- FMEA & APQP
- Process Capability
- Defect Reduction & Quality Improvement
- Lean Six Sigma Training & Projects

04

INDUSTRIAL ENGINEERING

*Optimizing Resources.
Improving Performance.*

- Time & Motion Study
- Manpower & Capacity Planning
- Productivity Measurement
- Line Balancing
- Work Measurement
- Process Optimization
- Cost Reduction
- Production Planning & Control

05

WEB DESIGN & DEVELOPMENT

*Building Digital Presence.
Enabling Digital Growth.*

- Corporate Website Design
- Responsive Web Development
- Landing Pages
- Business & Portfolio Websites
- UI/UX Design
- Dashboard & Analytics Integration
- Website Maintenance & Support

OUR EXPERTISE IN CONVEYOR BELT MANUFACTURING

TECHNICAL EXPERTIES

In-depth knowledge of textile as well as steel cord conveyor belts, systems and industry best practices.

PRACTICAL APPROACH

Solutions designed for real world challenges with measurable results.

RELIABILITY FOCUS

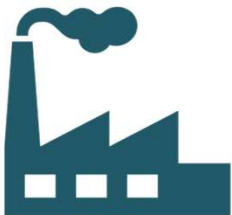

Enhancing system reliability and minimizing unplanned downtime

VALUE DRIVEN

Reducing total cost of ownership and delivering maximum return on investment

INDUSTRIES WE SERVE

MINING & MINERALS

POWER PLANTS

CEMENT

PORTS & LOGISTICS

AGGREGATES

STEEL & METALS

|| www.linkedin.com/in/ranjit-mondal-316301ab

OUR PROCESS & **APPROACH**

UNDERSTAND

We study your operation, challenges and goal

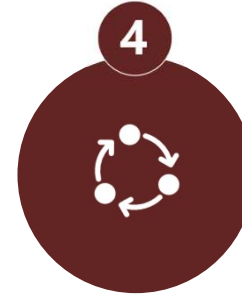

ANALYZE

Detailed assessment and root cause identification

RECOMMEND

Practical, cost-effective and customized solution

IMPLEMENT

Support during implementation and execution

IMPROVE & SUSTAIN

Continuous monitoring and improvement for long term results

DELIVERING RESULTS THAT MATTER

Improve
System Reliability

Reduced
Maintenance Cost

Minimized
Downtime

Enhanced
Safety

Extended
Belt Life

Increased
Productivity

WHY CHOOSE US?

- ✔ Years of hands-on industry experience
- ✔ Practical solutions with measurable outcomes
- ✔ Focus on safety, efficiency and reliability
- ✔ End-to-end support from assessment to implementation
- ✔ Strong commitment to client success

OUR COMMITMENT

**YOUR PERFORMANCE
IS OUR PRIORITY**

“We don't just recommend improvement—we build the capability to sustain it.”

**LET'S WORK TOGETHER
BUILDING A STRONGER
WORKFORCE TOGETHER**
